

Hello Koula Gianoulas

2/14/2012

There have been nothing but lies told 90% are lies. I don't know where the media is getting its information, but none of my letters claim I killed anyone, and I've never put anyone in a well. I can give plenty of people as witnesses who would testify that was Herzog party area, NOT mine, I've never been to any of his road parties.

Herzog has two more sites where he has dumped his victims.

On February 12 at 8:30 PM a guard came to my cell and claimed the CIA hospital wanted to see me, I went to the hospital where my clothing was taken I was put in a smock and put in a cold room for 14 hours so they could monitor me. See my dumb ASS sister Barbara Jackson called and said I was suicidal, I have never giving Barbara power of Attorney over my life, nor would I, should this ever happen again to me I'm filing a lawsuit against all parties, because CDCR will have to beat me really bad next, and break my bones to get me there.

Barbara Jackson has not wrote in almost two years she never sends a Christmas card nor a B-day card. Now you tell me how she can judge my mental state. Her concern is about 13 years to late. If you want to tell the truthful story you've got to

P.S. I've never said I knew where that little Hayward girl is, I never said Herzog killed her, I only said the sketch looked like him and he had family in that area, The rest are lies of the media, and their made up theory.

I'd like it understood without Mr. Leonard Padilla's help these Sheriff's would never have found one of Herzog's burial areas. He is the one that made it happen, I did not know what kind of can of worms I was opening up, but I opened it anyways.

For the record I see Leonard Padilla claiming he has paid me 33 thousand as of today Leonard Padilla has not paid me a dime.

That's why I've held off on Herzog's other two sites, I am the only one with that knowledge now since Herzog killed himself. From what he said he was taking people from Modesto as well.
